TruKraft Bamboo Facts

- TruKraft bamboo is 25% harder than oak; 12% harder than maple; 2-1/2 times more stable than maple
- 5-coat aluminum oxide factory finish with 2 topcoats of scratch-resistant polyurethane
- Coating materials are water-based and solvent-free

Installation

TruKraft prefinished bamboo flooring can be nailed, glued or installed as a floating floor. Float or glue over concrete, tiles or particle board using proper preparation and vapor barrier. Nail, glue or float upon plywood or solid wood sub-floor. Suitable for residential or commercial applications.

Always consult detailed installation instructions or use a certified installation specialist to ensure quality.
